## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claim 13 is allowed. The following is a statement of reasons for the indication of allowable subject matter: the prior art made of record does not teach a method of improving battery life of a wireless communication device comprising sensing environment conditions within a predetermined distance of the wireless communication device, determining a usage pattern match based on the sensed environmental conditions, adjusting a power consumption level in accordance with the usage pattern match and automatically transmits a predetermined message to a predetermined device after a predetermined condition is satisfied.

### ***Conclusion***

Additional prior art made of record and not relied upon but considered pertinent to applicant's disclosure includes Heinonen et al. (US 7,031,663) that discloses automatic environmental measuring stations that report environmental data in a cellular system.
